

Equipe MUSICS
Appel à candidature
Sujets de thèse

Sujet 1 : Graph signal processing for IoT systems

Sujet 2 : Deep learning approaches for distributed compressive sensing

Sujet 3 : Impairment mitigation in massive MIMO systems

Sujet 4 : Biomedical information extraction via machine learning

Sujet 5 : Evolved Multimedia Broadcast/Multicast Service schemes: SC-PTM vs. MBSFN

Sujet 6 : Resource scheduling in IAB-enabled networks for moving users and/or BSs

Sujet 7 : Design of resilient/optimal multi-connectivity/advanced carrier aggregation schemes in 5G/B5G networks
